

ABCS of Community Health

2021 Year-at-a-Glance

A lcohol and Substance Use

19 school staff members from 9 school districts trained in Botvin Lifeskills, an evidenced-based program

70 individuals received Recovery Corps Recovery Coach services.

86% of Recovery Corps Recovery Coach clients reported services helped them maintain sobriety.

\$350K was distributed to local substance use prevention coalitions to address opioid misuse prevention efforts.

C hronic Disease

351 Health System employees participated in the Resiliency Boost Program to learn and implement strategies to manage holiday and caregiver stress related to COVID-19.

8,000 pounds of produce was harvested from 30 hydroponic gardens and distributed to schools, YMCAs, food pantries, Aging and Disability Resource Centers and nursing homes.

Other Efforts

Workforce Development

101 AmeriCorps members across Wisconsin provided capacity-building services at nonprofit organizations to advance local community health efforts.

81,231 hours of service was provided to community-based organizations by Marshfield Clinic Health System AmeriCorps members.

14 volunteers and students trained to connect individuals with community resources for assistance

Developed a pipeline of workforce professionals in substance use, community health and behavioral health.

COVID-19 Effort

113 individuals attended the Wisconsin Afterschool Network Summer Day Camp Institute 5-part series focused on the impacts of COVID-19 and operating a safe and supportive afterschool environment for youth and staff.

B ehavioral Health

36,500 students screened utilizing the behavioral emotional social traits (b.e.s.t.) tool in 50 school districts to help teachers identify and support students' behavioral health.

\$80,000 was invested in 31 schools and community-based organizations to implement Life Tools, an eight-week social emotional learning program reaching over 500 2nd-8th graders.

296 youth professionals participated in over 12 trainings on resilience, trauma informed care and behavioral health.

150 individuals participated in Question, Persuade, Refer (QPR) suicide prevention training.

S ocial Determinants of Health

2,095 referrals to community-based organizations given to nearly 700 individuals with social needs such as food, housing and transportation.

Established Office of Health Equity, Diversity and Inclusion and hired first dedicated staff members.

1 of 4 health care systems in Wisconsin to sign the American Hospital Association's Health Equity Pledge, committing to eliminate health care disparities in our state.

Marshfield Clinic Health System Center for Community Health Advancement (CCHA) addresses the health needs of our communities through a variety of programming and partnerships. This work could not be done without hundreds of community partners, coalitions and community-based organizations.
